SERVICES OFFERED

ASSET MANAGEMENT

- Helps you track your inspections and report on them anytime, anywhere.
- Reduces the total cost of ownership for your equipment.
- Ensures you stay compliant with provincial and national safety regulations.
- Helps make your organization a safer work environment.

INSPECTIONS & CERTIFICATION

- All inspections comply to ASME, CSA and provincial regulations.
- Quick visual reference for inspections with our colour coding system.
- On site inspections with handheld devices.
- We offer visual inspection and load testing.

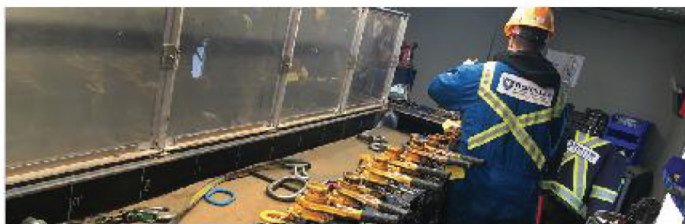

TRAINING

- We offer an extensive assortment of high-quality safety training and certification courses.
- Courses can be customized to fit your workplace's specific needs.
- Offers practical, hands-on learning and exceeds the minimum safety requirements.

FALL PROTECTION & LIFE LINES

- We design, install and engineer lifelines.
- We ensure equipment meets or exceeds industry standards.
- Technicians are certified and trained in the supply, inspection, repair and certification of fall protection systems.

HOIST SALES & SERVICE

- We offer sales and repairs on air, electric and manual chain hoists.
- We can inspect and re-certify hoists in compliance with provincial regulations.
- Service technicians are factory trained and can service and support most major brands.

CRANE SALES & SERVICE

- We can inspect, maintain, repair and upgrade your current cranes.
- We offer design and installation services on new cranes.
- Our crane services help reduce down time due to inefficient equipment.

INSPECTIONS AND REPAIRS

HERCULES SLR CAN PROVIDE QUALIFIED TECHNICIANS TO INSPECT, ESTIMATE AND REPAIR YOUR SECURING, LIFTING AND RIGGING EQUIPMENT ON-SITE OR IN ONE OF OUR FULL-SERVICE SHOPS.

- Fall arrest - harness, lanyards, life lines, Miller Dalloz, North and DBI/Sala
- Lifting gear - all sling types, hooks, shackles, eye bolts and swivels
- Overhead, gantry and jib cranes
- Monorails
- Crane wire rope - overhead and offshore
- Hoists and trolleys - manual, electric, pneumatic and hydraulic
- Below the hook devices
- Rigging gear and hardware
- Winches - air and hydraulic
- Hydraulic jacks

All inspections comply with provincial Occupational Health & Safety Acts, CSST in Quebec and ASME standards. We are registered to ISO 9001:2015 and our team has had training from a number of leading international companies who specialize in lifting gear application and material handling, such as:

- | | | |
|------------------------------------|--------------------|------------------------|
| • The Crosby Group | • Yale Hoists | • Columbus McKinnon |
| • Campbell | • Ingersoll Rand | • Kito Hoists |
| • Coffing Hoists | • Renfroe | • Wire Rope Industries |
| • DBI/Sala | • Lift-Tech | • Magna Lifting |
| • Wire Rope Corporation of America | • Miller Dalloz | • Tractel |
| • The Crane Institute of America | • Bridon - Bekeart | • 3M |

LIFTING STANDARDS WORLDWIDE™

The Lifting Equipment Engineers Association (LEEA) is established across the globe as the respected and authoritative representative body for all those involved in the lifting industry worldwide.

Comprehensive training programs cover every aspect of lifting equipment from manufacture, assembly and testing, through to examination and certification. Health, safety and legal requirements are also included.

REPAIRS

If a need for repair arises during inspection, we can immediately make recommendations and schedule the repair to reduce work interruption and ensure your equipment meets or exceeds industry standards.

Once repairs have been completed, we will supply full certification on your equipment to show it meets the required industry and manufacturer standards.

CERTTRACKER®

Our web based certificate tracking system, can help you to maintain your inspection records, provide advance notice of inspection due dates and schedule service times to ensure your work site equipment remains certified.

SAFETY AND TRAINING

KEEP YOUR WORKPLACE SAFE WITH THE INDUSTRY'S BEST SAFETY TRAINING AND CERTIFICATION COURSES.

Hercules SLR offers an extensive suite of high-quality safety training and certification courses. Whether you're looking for initial or refresher training, we provide practical, hands-on courses designed to exceed the minimum safety requirements.

CUSTOMIZED TRAINING:

Our courses can be customized to fit your workplace's specific needs. We are always willing to design a course (or multiple courses) specifically for a client. If you're interested in building a customized training program, get in touch with us today. One of our training representatives would be happy to help you get started.

WE OFFER THE FOLLOWING SAFETY TRAINING COURSES:

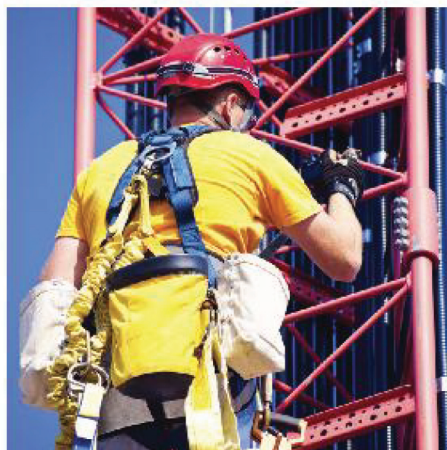

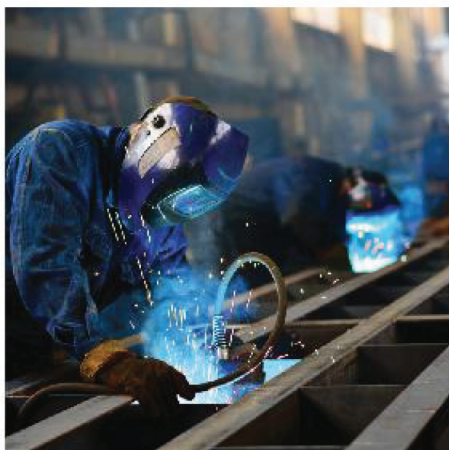

- Rigging
- Fall Protection
- CPR/First Aid
- Aerial Platform Safety Awareness
- Respiratory-Competent User
- Overhead Crane Safety
- Forklift Safety Awareness
- Lockout Tagout (LOTO)
- WHMIS
- Gas Detection- Competent User

CAN'T FIND WHAT YOU'RE LOOKING FOR?

We have other courses through our strategic partnerships, which are available on request. For more information, please email us at training@herculeslr.com

WE ALSO OFFER:

- Engineered Services
- Design of Horizontal Lifelines, Vertical Lifelines and Anchor Points
- Installation of Horizontal Lifelines, Vertical Lifelines and Anchor Points
- Repairs, Certifications and Inspections
- Equipment Rentals

TESTING AND CERTIFICATION

Hercules SLR will help you to regulate and improve the safety of your securing, lifting or rigging devices to industry standards with the following testing services:

- Load testing up to 900 000 lbs
- Non-destructive testing (magnetic particle)
- Destructive testing up to 700 000 lbs
- Proof testing

WE CAN ALSO PROVIDE ON-SITE WIRE ROPE SPOOLING AND POWER LUBRICATION.

Using CertTracker, we retain all certifications and certified drawings and/or digital files. We will help you to maintain all equipment certifications. As part of our customer service, we can provide you with reminders when one of your devices is coming due for inspection.

In addition, we can inspect and reverse-engineer lifting equipment in order to provide certified drawings, lifting capacities and nameplates for existing equipment to become compliant.

HERCULES SLR IS AN AUTHORIZED WARRANTY AND REPAIR CENTER AT SELECT BRANCHES FOR THE FOLLOWING:

- Columbus McKinnon
- Kito Hoists
- Ingersoll Rand
- DBI/Sala
- Miller
- Crosby
- IP Clamps
- Renfro
- Tractel
- Mipeg
- Yale
- Lift-Tech

Hercules SLR can help improve the safety of your securing, lifting or rigging devices to industry standards.

RENTAL EQUIPMENT

WITH THE LARGEST MATERIAL HANDLING RENTAL FLEET IN CANADA, HERCULES SLR® CAN PROVIDE YOU WITH EQUIPMENT WHEN YOU NEED IT.

From common securing, lifting and rigging requirements to specialized long lift and high capacity applications,

Our rentals are available by the day, the week, the month, the year or by the project.

More and more industry professionals have recognized the benefit of rental versus ownership due to the high costs associated with capital investment, taxes, interest, insurance, maintenance, storage, safety requirements and recertification.

All our rental equipment meets or exceeds manufacturer, government and industry inspection criteria prior to each rental.

SPECIAL PROJECT CONTAINERS FOR CONSTRUCTION & SHUT DOWNS

We can mobilize your securing, lifting and rigging requirements in one of our containers for road, air or offshore transport.

RENTAL EQUIPMENT

- Lifting hardware
- Load cells/dynamometers
- Lifting slings (chain, wire rope and web)
- Air hoists
- Chain hoists (1-100 tons with a variety of lifts)
- Lever hoists (0.75-9 tons with a variety of lifts)
- Water bags
- Electric hoists
- Tuggers and winches
- Trolleys (1-10 tons)
- Beam clamps
- Spreader beams
- Fall protection
- Hydraulic equipment

Hercules SLR can provide delivery,
set-up and training on all of
our rental equipment.
